News for patients

The South London Cardiac and Stroke Network (SLCSN) works with patients, carers, clinicians and other healthcare professionals to create high quality cardiac and stroke services that focus on the patient and are available to all. Patients are always our top priority and are the driving force behind everything we do.

In this issue

- Listening to the patient: a moving account from a stroke survivor
- Network news
- Patient experience news
- Events

If you would prefer to have the newsletter posted to you, please contact the Network on 020 8812 5950 or via email, people@slcsn.nhs.uk.

What is the SLCSN?

The South London Cardiac and Stroke Network partners with healthcare organisations across the region to advance cardiac and stroke care.

- **Focusing on patients**
  Everything we do at the Network centres around patients. That is why we exist. Our vision is to connect patients and healthcare organisations across South London to exceed national standards in cardiac and stroke care.
- **Connecting healthcare**
  By collaborating with patients, PCTs, commissioners of healthcare, clinical staff and other healthcare professionals, the Network channels clinical expertise and builds strong relationships to help streamline the way in which care is delivered across the entire patient pathway, from prevention to acute care to rehabilitation.
- **Creating results**
  Rapid improvements create a healthier, more financially viable system which facilitates consistently high-quality care for all South Londoners.

Contact us

We are always interested in hearing from you. If there is anything you would like to see in a future newsletter, please let us know - People@slcsn.nhs.uk or 020 8812 5950.
